

## A. Helpful Maths

time limit per test: 2 seconds  
 memory limit per test: 256 megabytes  
 input: standard input  
 output: standard output

Xenia the beginner mathematician is a third year student at elementary school. She is now learning the addition operation.

The teacher has written down the sum of multiple numbers. Pupils should calculate the sum. To make the calculation easier, the sum only contains numbers 1, 2 and 3. Still, that isn't enough for Xenia. She is only beginning to count, so she can calculate a sum only if the summands follow in non-decreasing order. For example, she can't calculate sum  $1+3+2+1$  but she can calculate sums  $1+1+2$  and  $3+3$ .

You've got the sum that was written on the board. Rearrange the summands and print the sum in such a way that Xenia can calculate the sum.

### Input

The first line contains a non-empty string  $s$  — the sum Xenia needs to count. String  $s$  contains no spaces. It only contains digits and characters "+". Besides, string  $s$  is a correct sum of numbers 1, 2 and 3. String  $s$  is at most 100 characters long.

### Output

Print the new sum that Xenia can count.

### Examples

<b>input</b>	<a href="#">Copy</a>
3+2+1	
<b>output</b>	<a href="#">Copy</a>
1+2+3	
<b>input</b>	<a href="#">Copy</a>
1+1+3+1+3	
<b>output</b>	<a href="#">Copy</a>
1+1+1+3+3	
<b>input</b>	<a href="#">Copy</a>
2	
<b>output</b>	<a href="#">Copy</a>
2	

### → Attention

Package for this problem was not updated by the problem writer or Codeforces administration after we've upgraded the judging servers. To adjust the time limit constraint, solution execution time will be multiplied by 2. For example, if your solution works for 400 ms on judging servers, then value 800 ms will be displayed and used to determine the verdict.

### Codeforces Round #197 (Div. 2)

Finished

Practice

### → Virtual participation

Virtual contest is a way to take part in past contest, as close as possible to participation on time. It is supported only ACM-ICPC mode for virtual contests. If you've seen these problems, a virtual contest is not for you - solve these problems in the archive. If you just want to solve some problem from a contest, a virtual contest is not for you - solve this problem in the archive. Never use someone else's code, read the tutorials or communicate with other person during a virtual contest.

Be careful: there is 50 points penalty for submission which fails the pretests or resubmission (except failure on the first test, denial of judgement or similar verdicts). "Passed pretests" submission verdict doesn't guarantee that the solution is absolutely correct and it will pass system tests.
